Hole sponsorship available from \$1250, including 4 player team rego

Each year, the Perry Cross Spinal Research Foundation hosts this annual Golf Day with the sole aim of raising much needed funds for research into a cure for paralysis.

In 2007 the Perry Cross Spinal Research Foundation (PCSRF) established an important relationship with Bond University supporting a three year research project with the Faculty of Health Sciences and Medicine. The project is being undertaken by a PhD student under the supervision of a full time Bond University medicine professor. The monies raised from the annual golf day directly fund this program and others like it to forge ahead in the field of spinal injury research.

Your support is appreciated. Together let's find a cure.

**Are you able to donate a prize or auction item for the event?**

If you are able to contribute an item/s for our auction, raffle or prizes on the day please contact Jackie Dorahy [jdorahy@raygroup.com.au](mailto:jdorahy@raygroup.com.au) to discuss in further detail.
